Organza Blanca, 3/9

Steel and crystal sculpture.

23 x 15 x 10 in.

The sculpture stands 23 inches tall, it is 15 inches wide, and 10 inches deep. It stands on a black velvet pedestal that is 43 inches tall.

The sculpture comprises of a mirror finish steel frame that holds 21 borosilicate crystal rods. The crystal rods have had an image etched and colored on the reverse side. The rods have been dispersed within the frame in an oval, which makes the image only viewable from the front, in fact when viewed from the side no image can be seen. The image, when seen from the front, is of a model walking on a runway in a couture organza gown. The piece has taken the artist over six months from conception to completion.
